

Task 2 - **Deadline 28<sup>th</sup> October 2011****Hidden Words**

Secret messages have been popular for ages. For example there was a special machine called Enigma invented at the end of World War I for the encryption and decryption of secret messages.

In this task you can try to decode some hidden words. You can use a special decoding table, which helps you to get the jumbled letters first, and then you unscramble them to get the hidden words. Maybe you find this work easy and you will use it in some of your other games.

**A decoding table:**

ABC	DEF	GHI
JKL	MNO	PQR
STU	VWX	YZ

**Hidden words are:**

1	
2	
3	
4	
5	
6	
7	
8	

1.  $\frac{*}{\quad} \quad \frac{*}{\quad} \quad \frac{*}{\quad} \quad \frac{*}{\quad} \quad \frac{*}{\quad} \quad \frac{*}{\quad}$

2.  $\frac{*}{\quad} \quad \frac{*}{\quad} \quad \frac{*}{\quad} \quad \frac{*}{\quad} \quad \frac{*}{\quad} \quad \frac{*}{\quad} \quad \frac{*}{\quad} \quad \frac{*}{\quad}$
