MARK...../4

8. Name the animals.

Example:

penguin

1

2

3

4

MARK...../4

9. Read the text. Are sentences 1 – 8 true (T) or false (F)?

This is the Nupika Valley. It is a beautiful green valley. We have our small farms near the river. Around us there are forests full of many wild animals. Some of them are very rare. Next year, however, a dam will be built across the river here and the

Valley will change forever. There will be a huge lake behind the dam and the water will be used to produce electricity.

We, the local people, don't want the dam. The whole valley will be flooded by the lake, so our villages will be covered by water. The government says that they will build new villages for us, but we don't want to move. The valley is our home.

In fact, it isn't just our home. Many animals live in the forests in the valleys, so their homes will be lost, too. Some of the larger animals will be caught and taken to natural reserves, but most of the animals will have nowhere to go. They will be left to die.

Several foreign governments are helping to pay for the dam. However, without money our government won't be able to build it. Then our beautiful valley and its animals will be saved.

1 There are some farms near the river in the Nupika valley.

2 There is a dam in the Nupika valley.

3 Electricity will be produced from the water from the lake.

4 Local people are looking forward to the new dam.

5 The government isn't going to build new villages for the local people.

6 Some of the animals will lose their home and die.

7 The government has enough money to pay for the project.

8 The valley will be saved if the government hasn't got enough money.

MARK...../8

RESULTS:

Cvičení 1: 1 passive, 2 active

Cvičení 2: 1 are killed, 2 are sold, 3 was polluted, 4 will be protected, 5 were hunted, 6 are looked after, 7 are bought, 8 is caused
