

Watch this video: *“Doctor Explains What You Need to Know About Pandemics”*.

[https://www.wired.com/story/singapore-was-ready-for-covid-19-other-countries-take-note/?bxiid=5cec2510fc942d3ada085d70&cndid=49429800&esrc=desktopInterstitial&source=EDT\\_WIR\\_NEWSLETTER\\_0\\_DAILY\\_ZZ&utm\\_brand=wired&utm\\_campaign=aud-dev&utm\\_mailing=WIR\\_Daily\\_031220&utm\\_medium=email&utm\\_source=nl&utm\\_term=list1\\_p3](https://www.wired.com/story/singapore-was-ready-for-covid-19-other-countries-take-note/?bxiid=5cec2510fc942d3ada085d70&cndid=49429800&esrc=desktopInterstitial&source=EDT_WIR_NEWSLETTER_0_DAILY_ZZ&utm_brand=wired&utm_campaign=aud-dev&utm_mailing=WIR_Daily_031220&utm_medium=email&utm_source=nl&utm_term=list1_p3)

1. Watch the first 2 minutes and 5 secs and match the terms to the definitions.

- |                    |  |
|--------------------|--|
| A pandemic         | when a disease spreads to a large geographic area          |
| An endemic disease | a disease which spreads all around the world               |
| An outbreak        | when a disease occurs well above and beyond endemic levels |
| An epidemic        | a disease which occurs at a steady, predictable rate       |

2. Watch the same part again and circle the correct option.

- A pandemic is a disease that spreads **dangerously/ globally/ quickly**.
- A pandemic affects a large **number/ amount/ mass** of people
- Disease severity **is/ is not/ may be** a key issue in the definition of pandemic.
- You need to focus on **slow/ slowing/ reducing** the spread of infection.
- You have to properly isolate people who are **infected/ effected/ affected**.
- Quickly **invent/ make up/ develop** treatments and vaccines.

3. Watch the next part up to 2 mins 26 secs and fill in the numbers.

The death rates of the following diseases are ...

Coronavirus \_\_\_\_\_

SARS \_\_\_\_\_

MERS \_\_\_\_\_

4. Watch the next part up to 5 mins and 19 secs and answer the questions.

a. What is “cough hygiene”?

---

---

b. Why does a flu shot help?

---

---

c. What is social distancing? (Compare with the current recommendations.)

---

---

d. When should you wear a mask? (Compare with the current recommendations.)

---

---

5. Watch the next part (5 mins and 20 secs) and answer the questions.

| <b>Name of pandemic</b>      | <b>When was it?</b> | <b>How many people died?</b> | <b>Where did it originate?</b> | <b>Other interesting notes</b> |
|------------------------------|---------------------|------------------------------|--------------------------------|--------------------------------|
| Bubonic plague (black death) |                     |                              |                                |                                |
| Spanish flu                  |                     |                              |                                |                                |
| HIV/ AIDS                    |                     |                              |                                |                                |
| SARS                         |                     |                              |                                |                                |
| Swine flu                    |                     |                              |                                |                                |

6. Finish watching the video and answer these questions.( odpovídej v budoucím čase)!!!!

How does a pandemic end?

---

What do virologists predict?

---

7. Fill in the missing prepositions. Then watch the whole video again and check.

- a. The disease is spread \_\_\_\_\_ the globe.
- b. The disease was spread \_\_\_\_\_ fleas.
- c. We have to focus \_\_\_\_\_ slowing the spread of the illness.
- d. This pandemic resulted \_\_\_\_\_ many deaths.
- e. The new law came \_\_\_\_\_ effect.
- f. People need to develop immunity \_\_\_\_\_ the disease.
- g. Some people will die \_\_\_\_\_ the disease.
- h. Virologists predict that 40 – 70% of adults will become infected \_\_\_\_\_ the new virus.

8. Please write a new vocabulary from the video and my worksheet.

For example:

To spread - šířit

9. Write Essay: The topic is - What do you think about Coronavirus?

Use min. 100 words

Write below an unknown vocabulary and everything send me back. Thank you!!!!!!
